## INDUSTRIAL ABRASIVES

TRU-MAXX® offers a comprehensive line of industrial quality abrasive products ideal for almost every application

TRU-MAXX® products provide maximum performance customers need, whether they're cutting metal with bonded abrasives or grinding, deburring, cleaning, finishing or polishing with coated abrasives

86779469

### Flap Discs

General Purpose | Zirconia Alumina | Coated  
Poly-Cotton Backed | Type 29 - GPZ

Designed for one-step grinding, blending and finishing of metal. Layered design allows for cooler grinding and up to 15x the life of normal resin fiber discs. Safe, quiet, easy to control for rapid stock removal, consistent finishes and longer disc life.

- Premium zirconia grain on extra wide abrasive flaps
- Up to 30% wider than other brands for better surface coverage and more efficient grinding
- For use on stainless steel and steel
- Application: Weld removal, beveling, edge deburring

#### Zirconia Alumina:

- A sharp, long-lasting material that works well on a wide variety of heavy grinding operations
- High strength for tough jobs
- Performs well on hard materials, such as stainless steel, inconel and cobalt
- Type 29: Most aggressive type - Flaps are angled for use on both conical and flat surfaces, providing larger surface contact for higher stock removal

Disc Diameter (Inch)	Hole Diameter (Inch)	Max. RPM	Grit	Grade	INDIVIDUAL		PACKAGE OF 20	
					Code	Price	Code	Price
4-1/2	7/8	13300	40	Coarse	86779469	12.09/ea.	04844916	137.96
			60	Coarse	86779485		04844924	144.86
			80	Medium	86779493		04844932	137.96

## Depressed Center Wheels

Aluminum Oxide | Resinoid | Type 27

- Value priced aluminum oxide wheels, perfect for on-site and small-unit jobs
- For grinding steel/metal and stainless steel
- For use with angle grinders

### Aluminum Oxide:

- Best used for economical, general purpose grinding, deburring, and blending ferrous and nonferrous materials
- High cut rate and durability

Wheel Diameter (Inch)	Wheel Thickness (Inch)	Hole Size (Inch)	Connector Type	Max. RPM	Pkg. Qty.	Code	Price
4-1/2	1/4	7/8	Arbor	13580	5	77962926	24.89
4		5/8	Arbor	15280	1	77962918	6.89

## Cut Off Wheels

General Purpose | Aluminum Oxide | Resinoid | Type 1 (01/41) | Grit 60

- Versatile, all purpose cut off wheel, value priced for general purpose jobs
- For use on stainless steel and steel
- For use with right angle grinders

### Aluminum Oxide:

- Best used for economical, general purpose grinding, deburring, and blending ferrous and nonferrous materials
- High cut rate and durability

Wheel Diameter (Inch)	Wheel Thickness (Inch)	Hole Size (Inch)	Reinforced	Max. RPM	Pkg. Qty.	Code	Price

## Hand Sanding Pads

6" Wide x 9" Long | Aluminum Oxide | Non-Woven

### Aluminum Oxide:

- Best used for economical, general purpose grinding, deburring, and blending ferrous and nonferrous materials
- High cut rate and durability

Pad Colour	Grade	Application	Pkg. Qty.	Code	Price
Maroon	Super Fine	Blending, deburring, general purpose cleaning, finishing	20	41028416	37.38
Green	Super Fine	Rust removal	20	41028408	38.01
Tan	Coarse	Weld cleaning, cleaning, finishing, rust removal	20	41028390	91.98
